(DEPARTMENT OF PRE-UNIVERSITY EDUCATION BOARD)

Percentage: 71.67%

Bachelor of Engineering (B.E), Information Technology | New Horizon College of Engineering

MARCH-2018

CGPA: 8.47/10.0

EXPERIENCE

Miniproject | Student-Life

DEC 2020 – JAN 2021

In this project I had many drop-down menus which was easy to navigate for a person visiting the website for the first time, each drop down had a special function which it was performing. The first dropdown mainly kept students up to date with the latest trends, the second option allowed the user to take up exams and find guides related to any topic they wanted and the third option was a college locator wherein it helped the students locate/navigate good colleges around them and get information on them.

Miniproject | Dream Car

MARCH 2021 – JULY 2021

In this project I had many drop-down menus which was easy to navigate for a person visiting the website for the first time, each drop down had a special function which it

was performing. The first dropdown mainly kept customers up to date with the automobile world, the second option allowed the user to check through the various collection of vehicles according to their comfort (model, price, company), third option allowed customers to sell their vehicles through the comfort of their house, and the last option allowed the user to rent a vehicle for his/her purpose and avail the benefits. This project is still under development as I'm trying to find some more features to enhance the website.

Internship | The Sparks Foundation

JUNE 2021 – JULY 2021

Worked on a web-development project which was associated with payment-integration to a website.

In the above task I developed a website where in users can donate money to the organization using the razor-pay option. It was very good hands-on experience and I learnt a lot about web development.
